

FRASERBURGH SEASHORE CENTRE

EDUCATION

Environmental education plays an important role in the work of Aberdeenshire Council's Ranger Service, and Fraserburgh Seashore Centre is an invaluable resource for this purpose.

Groups and schools making use of the Centre may leave lunch boxes and bags there, and groups of a smaller size may have lunch there during adverse weather conditions.

An environmental education pack, produced in accordance with the 5-14 Curriculum, is available to schools to illustrate what the Ranger Service can offer. For further information on this and any other aspect of Fraserburgh Bay and Fraserburgh Seashore Centre, please contact the Seashore Centre Warden.
